

KEYNOTE

09:30

It's all about creating a common language across disciplines – hands-on with daily systems engineering

Henrik Balslev, Systems Engineering

10:30

Break

11:00

System engineering in the development of Lelystad Airport

Bart van Luling, 2ndsense
Rogier Doffegnies, Airport Creators

11:30

The Vanderlande warehousing platform: a new paradigm ahead

Bruno van Wijngaarden, Vanderlande

12:00

Software security: the Holy Grail and the skeletons in the closet

Erno Jeges, Secure Coding Academy

12:30

Lunch

13:45

From SE handbook to cultural impact

Ton den Toom, Prorail

14:15

End-to-end thinking and the Philips Sonicare power toothbrush case

Adriaan van den Brand, Philips CDP2

14:45

Break

15:15

Sparxsystems Enterprise Architect as an integrated modeling platform for the infrastructure and industrial domain

Jan de Liefde, The Collective

15:45

Model-based system architecting in an industrial context

Richard Doornbos, TNO-ESI

16:15

Break

16:45

Energizing and lively discussion about the value of system architecting for engineering complex projects or systems

Ger Schoeber, Hotraco/High Tech Institute

17:30

Drinks & networking dinner
